I am writing this letter in conjunction with the invasive species(asian carp).I am a sport fisherman and a practicing conservationist.I am not affiliated with any big groups just myself as an individual,that being said there is no number on the damage the asian carp can and will do to our great lakes resources.I truly believe they will decimate what we have been building since day 1.There will not only be jobs lost along the way,think about the next generation and what they will miss out on.

I myself grew up on lake michigan sportfishing and it gives me pride to pass the knowledge of my youth and up to this day,to another fisherman/woman.If there's a huge loss to this non-native species there will be nothing left to look after.

Thank You

Sincerely,Todd Hoffman
